

SUSTAINABLE, COST EFFECTIVE CLEANING SOLUTIONS

Effective cleaning products for catering, encapsulated in **water-soluble sachets** which, when added to water, create the perfect sustainable cleaning solution.

DID YOU KNOW?
MOST CLEANING CHEMICALS ARE 90% WATER...

95%

Reduction in CO2 Emissions

By removing the need to transport water, we significantly reduce the emissions associated with the distribution and storage of chemicals.

90%

Reduction in plastic waste

Our planet friendly packaging is made from compostable materials and our bottles are extremely durable so they can be used time and time again.

75%

Reduction in cost

Significant cost-in-use savings when compared to ready-made chemicals and the added benefit of dose-control when compared to other super-concentrated liquid solutions.

OUR SUSTAINABILITY JOURNEY

Established in 1995, EntirePro was launched with a vision to provide cleaning chemicals of a **premium quality at an affordable price**.

Now with over **25 years experience** supporting the needs of both independent and national accounts, our product range has grown to encompass **100+ different formulas** for multiple applications throughout the hotel, restaurant & catering industry.

As we move into a new era of sustainability, we're committed to **minimising the environmental impact** our industry has on the planet. By switching to pod-based solutions, we firmly believe we can become a **driving force for good**, revolutionising the way the industry approaches janitorial supplies, helping to make the world a better place for future generations to enjoy.

- Our tried and tested active formulas, now contained within **PVOH film sachets** that are dry, compact and light.
- A truly **zero plastic waste** product with all packaging made from biodegradable and compostable materials.
- Relevant products tested to **EN1276** and **EN14476** standards, as well as article 95 biocidal regulations.
- Biodegradable formulas conforming to REACH sustainable standards and manufactured at ISO:9001 & ISO14001 facilities.
- A fully supported professional product** with QR code linked safety data sheets, online training and task-based cleaning plans.

GOODBYE SINGLE USE PLASTIC!

By switching to a pod system, you can eliminate single use plastics from your supply chain. Simply add 1 sachet to a re-usable bottle or bucket to create the perfect ready-to-use cleaning solution.

Example amount of plastic a leading hospitality company has saved in 1 year by switching to a pod system and re-usable bottles:

259,220 + **25,871** = **20.6 Tonnes Total Plastic Saved**
Triggers/1 Litre bottles 5 Litre containers

*Assuming a trigger/bottle weight of 65.5g and a 5 litre container weight of 140g.

HELLO REDUCED CO2 EMISSIONS!

Our online **sustainability calculator** will show you what impact switching to PodPro would have on the carbon footprint of your business.
